

IT Topics for Graduation

1. Communication
2. Information, sign, data, noise, redundancy
3. Data protection, network protocols
4. Rights
5. Neumann principle
6. Memory, central storage devices
7. Storage devices
8. Motherboard, central processing unit
9. Monitors, projectors
10. Input devices
11. Printers
12. Network
13. Information society
14. Operating system
15. Malware programs
16. Data compression
17. E-mail
18. Information systems
19. The libraries
20. Digital and analog signs
21. Picture and sound coding
22. The history of informatics
